

Can I e-File to the States? :

- WageFiling does participate in the Combined Federal and State Filing (CS/SF) program.
- Please verify directly with the states associated with your forms regarding 1099 reporting requirements. Not all states participate in the IRS Combined Federal and State Filing (CS/SF) program which allows the IRS to forward the 1099 forms to the states.
- Some state participants in the CF/SF still require information reporting regardless of their participation status.
- W-2 information reporting forms are e-Filed to the SSA only, as the SSA no state forwarding program. Please verify directly with the states associated with your forms regarding W-2 reporting requirements.
